

REDD Engineering & Construction, Inc.

CONSTRUCTION SERVICES

REDD Engineering & Construction, Inc. provides construction services primarily for industrial facilities and process plants. Our project managers and superintendents have a unique mix of skills representing a wide range of industries and service groups. We can act as General Contractor (licensed, insured, bondable), Construction Manager, or Owner's Representative through construction.

We pride ourselves in world-class project management, always focusing on clear communication with the client to ensure project needs and expectations are met. ***We know how to deliver challenging projects on time and on or under budget.***
